KEY FEATURES

Black Ceramic Glass Surface
P&C cooktops are designed to be scratch-resistant and effortless to clean, these cooktops offer a seamless aesthetic that contributes to a clean, modern kitchen ambiance. The minimalist design enhances the overall appeal, complementing any kitchen decor with its contemporary style.

Induction Zones
Electromagnetic heating technology where heat is generated inside your cookware, ensuring a more efficient process with less energy waste, faster heating, and a safer cooking experience

Precise Control
P&C cooktops feature user-friendly touch controls with LED indicators that are practical and allow for precise temperature settings.

9 Power Levels With Power Boost
This cooktop offers nine power levels for each zone and Power Boost to add even more power that speeds up the cooking process.

Residual Heat Indicators
When the cooking zone is not cool enough to touch safely, the residual heat indicators warn you with a visible red indicator on the cooktop surface.

Automatic Shutoff
If a cooking zone is in use for a certain period of time with no changes to the control setting, the burner will automatically turn off to prevent unsupervised heating.
