KEY FEATURES

Wash & Dry Your Clothes In One Cycle
Unique washer and dryer combo designed to give you more free time. Load the machine, set to wash + dry, and come back to clean, dry clothes.

1300 RPM Spin Speeds
High spin speed helps to reduce drying time and save energy.

Stainless Steel Drum
Durable interior holds up load after load.

LCD Display
Digital readout allows you to keep track of each cycle.

Electronic Touch Controls with Cycle Selector Knob
Enjoy user-friendly digital touch screen controls and the cycle selector knob to ensure easy operation through the wash programs.

Detergent Dispenser
Pull-out compartment for prewash, regular detergent, and fabric softener.

Multiple Temperature Settings
Four temperature settings allow more versatility in washing.

Time Delay Option
Allows you to time your laundry for the ideal finish time.

Rinse and Spin Function
Best for preventing stains from setting in fabrics.

Add Garment Function
During a wash, you can select this function to add a garment to the load after it has been activated.

ENERGY STAR certified
Uses less energy and water than national standards required to ensure more efficiency and lower utility bills.

GENERAL PROPERTIES

Front Load washer/dryer combination

Condensation drying technology, automatically drained

Spin Speed: 1300 RPM spin speed

Washer Temperature Settings: 5

Drying Cycles: 16

Drum Material: Stainless Steel

Control Type: Full graphic LCD display with touch buttons and selector knob

Universal Motor with DC Drive

CAPACITY

76L / 2.7 cu.ft. Capacity

10kg Washing Capacity

8kg Drying Capacity

FEATURES

Cycle Status Lights

Remaining Time Display

End Of Cycle Signal

Temperature Selection

3D Load Sensor

Hot/Cold water intake - heats to 90°C

20 Min. Quick Wash

Time Delay Option

Add Garment Function

PROGRAMS & PERFORMANCE

15 Programs - Normal/Cotton, Perm Press, Heavy Duty, Bulk/Large, Sportswear, Spin Only, Drain Only, Rinse & Spin, Tub Clean, Cold Wash, Sanitize, Baby Care, Delicates.

TECHNICAL DETAILS

Electrical Requirements:
120 Volt, 60Hz receptacle – (NEMA 5-15R) / 15 AMP Breaker Required

Supplied with a Canadian cord and plug.

Noise Level - Wash: 58 dBa

Noise Level - Spin: 77 dBa

Noise Level - Dry: 64 dBa

Water Pressure (Mpa): 0.05 Mpa – 1 Mpa

Low Water Consumption: 112L/Cycle

Low Energy Consumption: 6.12kWh/Cycle

Energy Star®

DIMENSIONS

Product Dimensions - W / H / D (In / mm)

$23^{1/2"}$ / $33^{1/2"}$ / $23^{1/2"}$ (595mm / 850 / 595mm)

Cut-Out Dimensions - W / H / D (In / mm)

$25^{3/8"}$ / min. $35^{7/16"}$ / $26^{1/2"}$ (645mm / min. 900 / 673mm)

COMBI-110

Installation Details

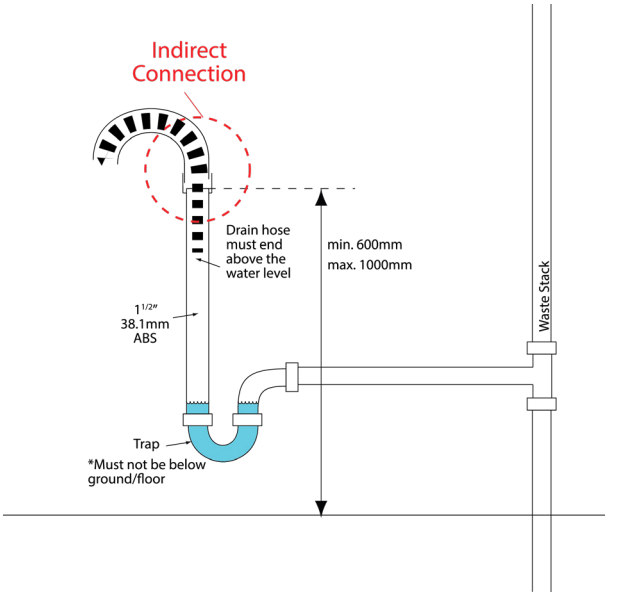
HOSES AND CONNECTIONS - INSTALLING THE APPLIANCE IN A NARROW SPACE

- Installing the laundry appliance in a narrow space may bend or crush the connections (hoses, power cord). Take great care in order to reduce the possibility of damaging the connections when installing or removing the appliance.
- A through hole with a diameter of at least 10 cm (4”) is required to pass the hoses and power cord . Make sure there are no rough edges that could damage the power cord or hoses. If the laundry appliance is installed in a metal unit protect the edge of the through hole for the hoses and power cord with a gasket. Do not use extension cords when making the electrical connection.



INSTALLATION CLEARANCE

1. The location must be large enough to allow the washer door to be fully opened.
2. Additional spacing should be considered for ease of installation and servicing. The door opens more than 90° and is not reversible.
3. Additional clearances might be required for wall, door, and floor moldings.
4. Additional spacing of 25mm on all sides of the washer is recommended to reduce noise transfer.
5. Companion appliance spacing should also be considered.
